Main Features

- / High Quality Polishing Films
- / Full Range of Grades
- / Long Lasting
- / Provides Excellent Finish

Product Overview

The Enbeam range of fibre optic polishing films are ideal for polishing all types of fibre optic connectors. The range includes all grades required, from removal of epoxy to the final finishing grade, and will produce a faultlesss finish on the end of the ferrule.

Product Specifications

Feature	Values
Granulation	**30 µm**

This data sheet was generated at 2:32am 26th November 2026 and is subject to change at any time.

Additional specifications

Features	Values
Abrasive Type	**Aluminium Oxide**
Backing Material	**Polyester Film**
Sheet Thickness	**3 mil**
Sheet Size	**250mm x 280mm**
Colour - 0.3 micron	**White**
Colour - 1 micron	**Light Green**
Colour - 3 micron	**Pink**
Colour - 5 micron	**Brown**
Colour - 9 micron	**Blue**
Colour - 12 micron	**Yellow**
Colour - 30 micron	**Green**

Part Code Table

Part Code	Description
200-864	**Excel Enbeam Fibre Optic Polishing Film Aluminium Oxide 0.3µm White**
200-866	**Excel Enbeam Fibre Optic Polishing Film Aluminium Oxide 1µm Light Green**
200-868	**Excel Enbeam Fibre Optic Polishing Film Aluminium Oxide 3µm Pink**
200-870	**Excel Enbeam Fibre Optic Polishing Film Aluminium Oxide 5µm Brown**
200-872	**Excel Enbeam Fibre Optic Polishing Film Aluminium Oxide 9µm Blue**
200-874	**Excel Enbeam Fibre Optic Polishing Film Aluminium Oxide 12µm Yellow**

This data sheet was generated at 2:32am 26th November 2026 and is subject to change at any time.
