✕ Solid core cable

✕ For switch/harness links and CP cables

✕ LSOH Outer Sheath

✕ Euroclass Dca-s2-d2-a1

## Product Overview

Excel Category 6A Solid Core (U/FTP) Screened Harness/Switch Link Leads are constructed from 100-191 Excel Category 6A U/FTP "S" Foil Screened cable (horizontal cable).

Each of these leads allows the construction of two Switch/Harness Links or Consolidation Point (CP) Cables. The lead is manufactured with a high performance screened RJ-45 plug on each end permitting the lead to be cut into two at the required lengths. Slimline blade strain relief boots are fitted to protect the latch and allow connection to the highest density equipment.

Using the same cable as the horizontal elements of the channel assures performance and does not "use up" the stranded patch lead allowance.

## Product Specifications
