## Product Overview

The Excel Category 6A Unscreened Twisted Pair Patch Panels are presented as 24 staggered RJ45 ports to limit the alien crosstalk produced when installed. The front of the panel is moulded from a UL 94V-0 rated ABS plastic which contains the new easy to use slide label system. Each block of 6 sockets has its own label which can be removed from the top of the covered label field. The label strip itself is protected by a clear, tough plastic insert. Termination can be made using 110 compatible tooling.
