Product Overview

The Excel Office Range brings style and enhanced aesthetics to any Excel installation, thanks to its curved plate finish and built in labelling fields.

The Single/Double Gang faceplates are each supplied with two half (12.5 mm wide) blanks. In the case of the Single Gang Faceplate this allows a single jack or shutter to be mounted centrally in the aperture. The two half (12.5 mm wide) blanks supplied with the Double Gang Faceplate allows spacing options for mounting three jacks or shutters in the faceplate.

The colour options permit the assembly of the telecommunication outlets to contrast with the wall finish if required to comply with the Equality Act 2010 and Part M of the Building Regulations.
