Excel 4U Patch Rack Black

Part Code: 100-920

sales@excel-networking.com
excel-networking.com

Main Features

/ Available in 4U or 8U options

/ Fixing brackets and plate supplied

/ Optional plastic rings available for patch lead management

Product Overview

The Excel Patch Rack provides the ideal solution for 'Top of Rack' patching applications within the Data Centre or Main Equipment Room.

The Excel Patch Rack can be mounted on to Basket Tray or Ladder style containment. It can also be mounted directly onto the floor slab above a false ceiling to provide a consolidation point within commercial office installations.
