Excel Enbeam Fibre Optic Polishing Tool SC/ST/FC

Part Code: 202-088

sales@excel-networking.com
excel-networking.com

Main Features

- / High Quality Polishing Tool
- / Holds Ferrules vertical whilst polishing
- / Stainless Steel construction
- / Long Lasting

Product Overview

The Enbeam Polishing Tool is used for hand polishing fibre optic connectors. Two tools are available - one for LC ferrules (1.25mm) and one for SC, ST and FC ferrules (2.5mm). The tools are made from stainless steel and incorporate a precision centre bore to hold the ferrules precicely perpendicular to the polishing surface. Produces excellent results when used with the range of Enbeam polishing plates and films.
