

✗ High Quality Polishing Tool

✗ Stainless Steel construction

✗ Holds Ferrules vertical whilst polishing

✗ Long Lasting

Product Overview

The Enbeam Polishing Tool is used for hand polishing fibre optic connectors. Two tools are available - one for LC ferrules (1.25mm) and one for SC, ST and FC ferrules (2.5mm). The tools are made from stainless steel and incorporate a precision centre bore to hold the ferrules precisely perpendicular to the polishing surface. Produces excellent results when used with the range of Enbeam polishing plates and films.
