## Main Features

- / IP68 rated to 1.5 meters
- / Integrated pressure valve
- / Includes 648 splice protectors
- / Holds up to 648 single fibres
- / Includes 54 splice trays
- / Mechanical seals

## Product Overview

The Enbeam 648 Fibre Splice Enclosure has been designed to allow up to 648 fibres to be spliced and housed within an IP68 rated durable enclosure, which is ideal for harsh environment applications. The enclosure is mechanically sealed via compression glands to allow re-entry without compromising the integrity of the unit.

The enclosures can be mounted in several ways using different mounting brackets (see additional mounting options); wall, pit, pole and aerial. The enclosure allows different splice tray options for Splitters or different fibre counts per tray (see additional tray options).
