

✗ Duct-installable

✗ HDPE Sheath

✗ Multiple sizes available

✗ Multiple bundle configurations

✗ Crush and impact resistant

✗ RoHS Compliant

Product Overview

Enbeam duct installable blowing tubes have been designed for direct installation into existing ducts to allow blown fibre to be distributed externally. All tube bundles are over-sheathed with High Density Polyethylene (HDPE) to withstand the friction when installing the micro ducts.

All internal tubes are colour coded for easy identification and have a low friction inner coating to reduce drag & maximise blowing distances. Tubes are easily broken out of the main sheath and can be branched-off using the Enbeam push-fit blown tube connectors. The tubes are supplied on disposable wooden drums and capped at both ends to prevent ingress of moisture or contamination.

Product Specifications

Feature	Values
Suitable for outdoor installation	yes
Halogen free	no
Outer sheath colour	Green

Part Number Table

Part Number	Description
208-750	ENBEAM SINGLE HDPE EXTERNAL 5/3.5mm B/TUBE GREEN

Excel is a world class premium performing end to end infrastructure solution designed, Manufactured, supported and delivered without compromise.
