## Product Overview

The Excel Enbeam 1 x 32-way SC/APC Splitter Panels are sliding drawer style housings suitable for 1U of rack space. Each panel is manufactured from high quality 2mm thick steel with a powder coat finish to provide a strong and durable unit. Outgoing SC/APC adaptors are presented from right to left and numbered from 1 to 32 with the incoming port to the right of the panel. The PLC Splitter is housed inside the panel in an ABS housing to protect it against accidental damage.

The Enbeam Planar Lightwave Circuit (PLC) Splitter is fabricated using silica optical waveguide technology. Its compact size, high reliability, wide operating wavelength and good channel-to-channel uniformity is widely used in Passive Optical Networks (PON). Excel provides whole series of 1xN splitter products that are tailored for specific applications. All products meet GR-1209-CORE and GR-1221-CORE requirements.
