

# Excel Modular PDU 3x UK BS1363 Socket

Item Code: 555-060

- Hot swappable modules
- Fused
- Aluminium housing
- Future-proof
- Choice of socket style and density

## Product Overview

A range of socket modules for the Excel Modular PDUs which snap into the aluminum housing quickly, easily, and securely without the need for tooling.

The range of modules available enable users to mix and match socket styles to suit initial - and more importantly - changing connectivity or socket density requirements. Current 'standard' power distribution units offer little if any flexibility, meaning users have to install single style socket units, multiple units, or purchase power leads or converters to match equipment connectors with power strip sockets.
