- ✕ Designated cable storage area
- ✕ IP20 rated
- ✕ Accepts LC duplex or SC simplex
- ✕ Internal use only
- ✕ UL94-V0
- ✕ RoHS compliant

Product Overview

The Encasa compact point of entry box has been designed for the fibre to be passed through the enclosure allowing fibre to be distributed to apartments in multi dwellings applications. The enclosure has multiple cable entry points, a cable storage area, holds up to 2 splice protectors and has a single position to house either a SC simplex or LC duplex adaptor.

Flexibility is increased as the enclosure has latch points on both sides of the lid to allow it to be opened from the top or bottom when installed at high or low levels.

The cable storage area accommodates 2 mm to 3 mm cable with a maximum of 2 m 2 mm and 1 m 3 mm. Each enclosure comes pre-loaded with APC adaptors and 1 m G.657.A2 pigtails as standard, with an option to have adaptors only or longer pigtails installed if required. The compact design also allows installation within small ceiling voids or as a more discreet installation in communal spaces.

Each enclosure includes a fire clip which retains the fibre in position, should a fire break out within the building, ensuring compliance to the building regulations.

Product Specifications

Feature	Values
Surface mounted	yes
Type of connector	LCA/SCA
With couplers	yes
Suitable for type of fibre	Single mode
IP-rating	IP20

Excel Encasa Point of Entry Box Loaded with 1x LCA and 2x 1 Metre Pigtail

Item Code: 901-101

Ambient temperature	-40...60 °C
